SUMMARY

Self-learning, hard worker, critical thinker, highly organized, ambitious and reliable. I strive for success and want to work with a growing company that has a diverse team environment where I can make my mark.

EXPERIENCE

Fersan Capital, **Senior Software Engineer**
Aug 2023 - Present
•Responsible for developing web and app platforms tailored for influencers and their management needs.
•Commit to delivering high-quality, bug-free software by implementing rigorous testing and quality assurance processes.
•Foster transparency in all aspects of development, including project status, challenges, and decision-making processes, to build trust within the team.
•Deliver high-quality, bug-free software by implementing rigorous testing and quality assurance processes.

Herrontech, **Senior Software Engineer**
Aug 2022 - Aug 2023
At Herrontech, I played a pivotal role in developing innovative web and app platforms designed specifically for health care centres. My commitment to quality was evident as I implemented thorough testing and quality assurance processes, ensuring the delivery of bug-free software. I also prioritized transparency in our development practices, which fostered trust and collaboration within the team.

Collar, **Senior Software Engineer**
Aug 2020 - Aug 2022
•Responsible for creating web & app platforms to manage products & services specifically designed for pet owners/businesses.
•Rewrite and upgrade web apps to the latest technologies and encourage best practices in the team.
Work alongside the CTO on designing systems architecture & defining thorough solutions.
•Find workarounds to some existing challenges the company faces.
•Implement E2E & unit testing across the whole eco-system.
Support internationalization across all apps.

Mikroelectron, **Software Engineer**
Nov 2018 - Aug 2020
Maintaining and working on creating a full business portal, using NodeJS, GraphQL, and React.
Independently work on some complex projects and tickets.
Identify code and system vulnerabilities when they occur and come up with plans to resolve them.
Coordinate and highly engage in development agile processes (standup, ticket planning, sprint meeting, retrospects, releases).

EDUCATION

İstanbul Gelişim Üniversitesi
Bachelor's degree • **Computer Software Engineering**
